Chapter 6: Docker in the Real World

6.1. Introduction

6.2. A simple web-application with Docker

6.3. Creating a Dockerfile (part 1)

6.4. Creating a Dockerfile (part 2)

6.5. Building and pushing Docker images

6.6. Running Docker containers

6.7. Live code loading with volumes

6.8. Debugging tips and tricks

6.9. Linking containers with Docker networks

6.10. Persisting data to your Docker host

6.11. Sharing data between containers

6.12. Optimizing your Docker images

6.13. Running scripts when a container starts

6.14. Cleaning up after yourself
